DETAILED ACTION

Allowable Subject Matter

1. Claims 1, 3 and 4 are allowed.
2. The following is an examiner's statement of reasons for allowance: It is agreed that the prior art of record fail to teach or suggest alone or in combination, the limitations: "a sequence of linearly connected acceleration sections, each of which, in turn, is made in the form of one or more magnetic inductors, each linearly connected acceleration section being enveloped by a separate conductive screen and at least one of the separate conductive screens being made in such a manner that it envelops at least two acceleration sections which belong to different one-channel linear induction acceleration blocks" as claimed in claim 1. It is for this reason in combination with all the other limitations in the independent claim 1, that claims 1, 3 and 4 are allowable over prior art of record.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
